Census Comparison Report

Enniskillen
Neighbourhood Renewal Area

March 2014

CENSUS DATA 2011

NINIS has recently made available the 2011 Census data for the Neighbourhood Renewal Areas. This has provided us with an opportunity to update the 2001 Census data which was part of the evidence base used to baseline the Neighbourhood Renewal Areas within the Mid Term Review of Neighbourhood Renewal.

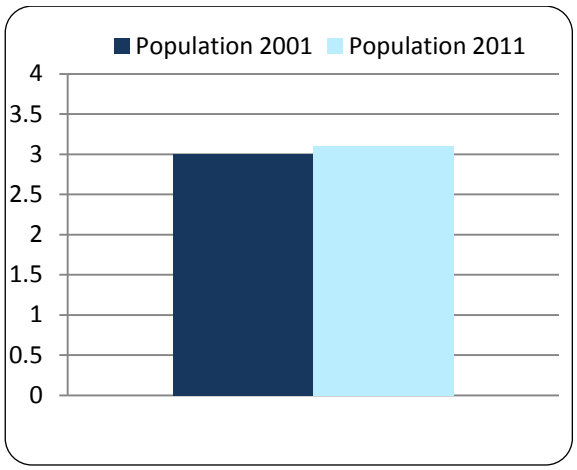

The following report provides 2001 Census and 2011 Census information in relation to:

Population
Age Profile
Community Background
Lone Parent with children
Lone Pensioner Households
Long Term illness Working Age
Working Age population with no qualifications
Economic Inactivity
Unemployment

Year Last Worked data, a new indicator introduced in the 2011 Census has also been provided.

1. Population

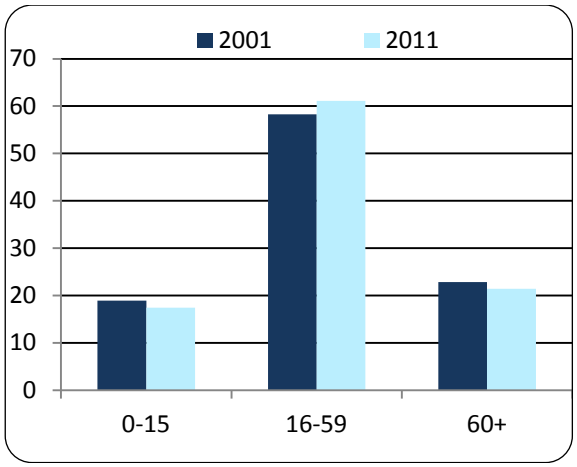

Figure 1 Population of Neighbourhood Renewal Areas (Thousands)

Enniskillen NRA has the 12th largest population across the NRAs. Its population has increased by 6% between 2001 and 2011, from 2939 to 3115.

2. Age

Figure 2 Age Profile of Neighbourhood Renewal Area (%)

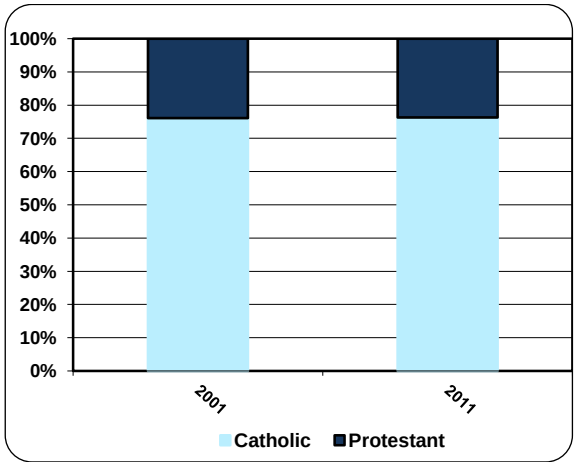

The 16-59 age grouping is the only grouping within which there has been a percentage point (pp) increase in population (2.8 pp). This is less than the increase across all NRAs (4.1 pp).

The percentage of the population within the 0-15 and over 60s age groupings has shown a decrease, 1.5 pp for 0-15s and 1.4 pp for over 60s. The decrease in the percentage of 0-15s is less than the decrease across both all NRAs (4.4 pp) and non-NRAs (2.3 pp). For the over 60s the percentage decrease is against the trend across both all NRAs (0.3 pp increase) and non-NRAs (2.5 pp increase).

3. Community Background

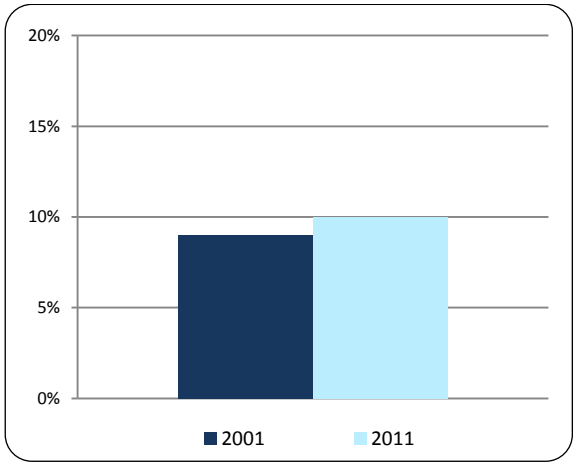

Figure 3 2001 – 2011 Community Background of Neighbourhood Renewal Area

In 2001 the population included 75.1% Roman Catholic and 23.6% Protestant. 2011 figures show a small decrease in both the Roman Catholic community (1.9 pp) and the Protestant community (0.9 pp).

4. Lone Parent with Children

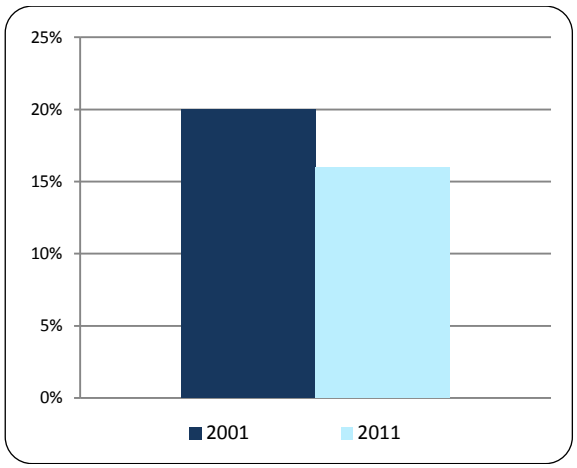

Figure 4 Lone Parent with Children Households in Neighbourhood Renewal Area

Along with Inner South Belfast and Ballyclare, Enniskillen NRA has the lowest percentage of households consisting of a lone parent with children. The percentage increased to 10% in 2011, an increase of 1.0 pp compared to 2001. This remains lower than the percentage across all NRAs (17%) but is greater than that in non-NRAs (8%).

5. Lone Pensioner Households in Neighbourhood Renewal Areas

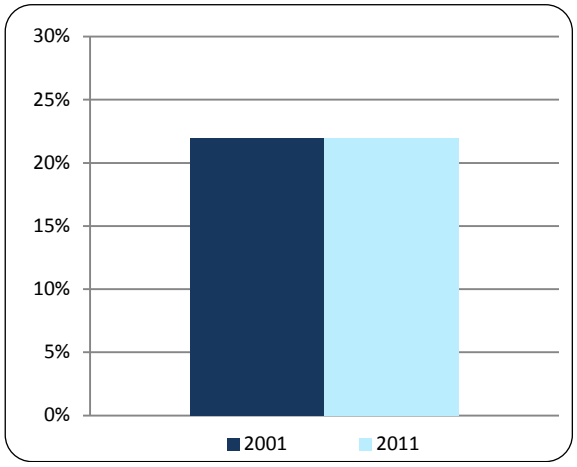

Figure 5 Lone Pensioner Households in Neighbourhood Renewal Areas

The percentage of lone pensioner households decreased to 16% in 2011, a reduction of 4.0 pp. This remains higher than the percentage across both all NRAs (11%) and non-NRAs (11%).

6. Long Term Illness working age

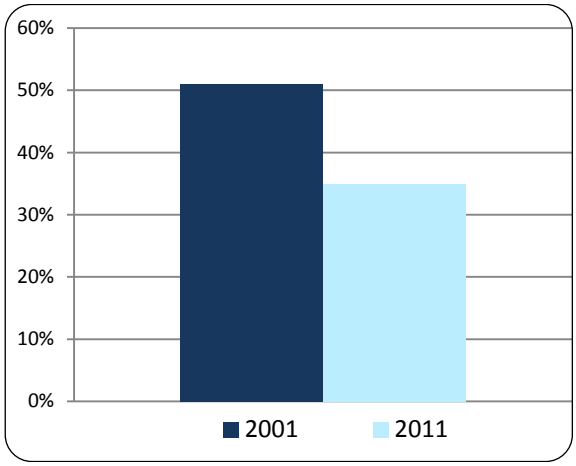

Figure 6 Working Age Persons with a Long-Term Illness in Neighbourhood Renewal Area

The percentage of working age people with a long term illness stayed the same at 22%. This is less than the percentage across all NRAs (25%), but is greater than that in non-NRAs (15%).

7. Working Age Population with No Qualifications

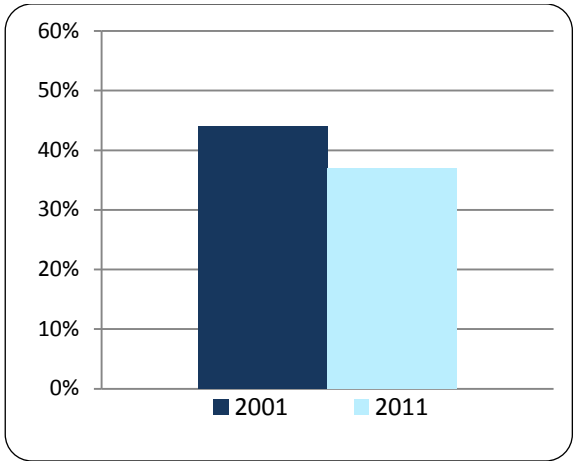

Figure 7 Working Age Population with No Qualifications in Neighbourhood Renewal Area

Enniskillen NRA has shown a 16.0 pp decrease in the percentage of the working age population with no qualifications, from 51% in 2001 to 35% in 2011. This is less than the percentage across all NRAs (41%) but is greater than that in non-NRAs (27%).

8. Economic Inactivity

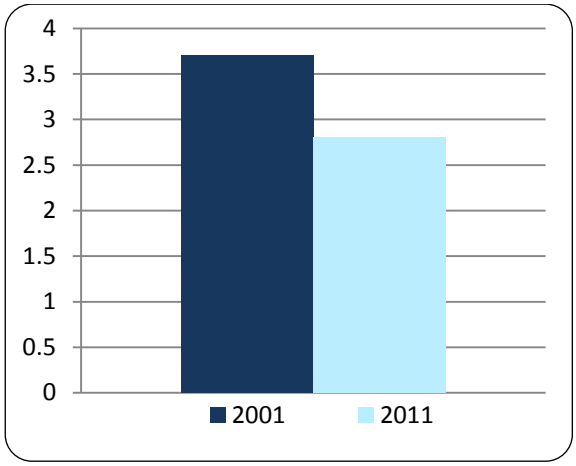

Figure 8 Economic Inactivity Rates in Neighbourhood Renewal Areas

The percentage of economically inactive people in Enniskillen NRA has decreased to 37%, a reduction of 7.0 pp. The percentage remains less than the average across all NRAs (50%), but is slightly greater than that in non-NRAs (35%).

9. Unemployment

Figure 9 Unemployment Rates (%) in Neighbourhood Renewal Areas

Enniskillen NRA has seen a 0.9 pp decrease in its unemployment rate, reducing to 2.8%. This is less than the percentage across all NRAs (3.6%), but is greater than that in non-NRAs (2%).

10. Last Year Worked

This is a new indicator within the 2011 Census and will be measured in future years.
